AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has but gone for it an appreciation and necessity by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit it conferred on thousands of sufferers could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabins of the American peasantry to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of lungs. Also in milder cases, such as children it is so pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incident to childhood.

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it undergoes his eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavoured here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy of once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust, by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PREPARED AND SOLD BY J. C. AYER, DRUGGIST and CHEMIST, LOWELL, MASS.

Sold in Bangor at wholesale and retail, by INGRAHAM & FULLER, also by G. W. Emerson, A. P. Guild, G. F. Sargent, Druggists; Buckport, O. A. Bradley & Co. Belfast, Wm O. Foss; Ellsworth, D. Noyes; Hampden, Isaac Snow, and by the Druggists generally throughout the country.

Lesage's Specific,

NEVER failing remedy for the speedy and radically curing diseases of the Urinary Organs, such as Gonorrhœa, Gleet, Whites, Stricture, Stone in the Bladder, &c., and needless to be more and more universally demanded. The proprietor would respectfully caution those troubled with the above annoying complaints to beware of those cure-all Quacks, who, unprincipled individuals, without the slightest knowledge of the structure of the human system recommend for every disease Lesage's Specific is only intended for the cure of Private Diseases, and the thousands that have sent their testimonials certificates such for its efficacy, while the letter it is known the greater is the demand for it. How different from the various quack nostrums which, while the unhappy victim has expended his last cent upon every quack nostrum—Lesage's Specific has been the only medicine depended on by every class, the senator, the lawyer, the merchant, the seaman and the dashing coxcomb are all tried it and found it truly the good Samaritan in the hour of trouble.

Dr. Darby, amongst extracts from some of his certificates, says:—"Fritz to Cumberland, 1851, I contracted a disease at Naples and tried all the remedies suggested by the most experienced Surgeons, without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.

British Endorsement of Pierce

The London Times, the organ of British aristocrats and manufacturers in its article of the 19th says — The merry game is now in full play between the democratic candidates for the United States Chair, and it is not a game in which the interests of our country are concerned. IT IS NOT THAT GENERAL PIERCE IS CONSIDERED THE BETTER MAN, THAT OTHERWISE. He is merely ACCEPTED as the nominee of that great party in the Union WHO DESIRE TO PUSH THE PRINCIPLES OF FREE TRADE TO ITS ULTIMATE LIMITS.

The Manchester Examiner and Times organ of the British manufacturers and capitalists, holds the following language on the subject — "THE ELECTION OF GENERAL PIERCE WILL ALMOST CERTAINLY PROVE THAT THE DEMOCRATIC MAJORITY, whether they may be their other differences, ARE UNANIMOUS IN THEIR TESTIMONY on behalf of a liberal commercial policy and any Government RESPONSIBLE to the country. Government may form will be one on which THIS COUNTRY MAY RELY FOR INTELLECTUAL CONFORMITY in reducing whatever practices the existing impediments to international intercourse.

The London Leader, another British free trade organ, is equally less informed about the political character of the democratic candidate for President of the United States, as it is about the views of Gen Pierce on the SUBJECT OF CO-OPERATION WITH ENGLAND. BUT WE CANNOT SAY THAT WE FELT ANY APPREHENSION ON THE POINT, AND WE SHALL AWAIT THE FINAL ELECTION NOT WITHOUT SHARE IN THE CONFIDENCE OF MANY AMERICAN FRIENDS THAT THE WHIGS WILL WIN.

☞ In the London Despatch of September 26 we find the following article which we commend to the serious attention and consideration of every voter — (Albany Journal.

The organs of the Whig and Democratic parties in Conservative and Progressive Electioneering and Free Trade — appear to have marshaled their forces and select their leaders for the coming election. EVERY ENGLISHMAN, of almost every class, JOINS IN THE EXPECTATION OF SUCCESS FOR THE DEMOCRATIC PROGRESSIVE, FREE TRADE PARTY.

Whig Caucus.

A general Whig Caucus will be holden at the City Hall on SATURDAY EVENING at 7 o'clock. The meeting will be addressed by

Hon. Israel Washburn, Jr.

and other distinguished orators. Our friends from Germantown are respectfully invited to be present.

Per Order

☞ The mortal remains of Daniel Webster will be committed to the grave on his own farm in Marshfield this day, and the last duties of surrounding friends will mingle their tears with the dust in which they shall ever hum.

In every part of the country, in all cities and seaports, along up on the lakes and rivers in villages and hamlets the signs of public bereavement have been shown on the death of Mr Webster.

In this city to day, the public bells will be tolled, minute guns will be fired, and many buildings will be draped in the badges of mourning. The Bangor House is most elaborately and beautifully draped.

The death of no public man has ever seemed to come so near to the people as this. The public sorrow seeks some public expression, and will find some mode of confiding to its depth and purity.

Public Testimonials of Respect to Mr Webster.

In the temporary absence of the Mayor to-day, the requests of the citizens which we publish this morning, was circulated but a few moments, before our paper went to press, and we doubt not that it will be responded to by the great mass of our citizens — Testimonials of respect to the memory of our most illustrious citizen, will be observed to-day throughout every part of our country —

We are informed that Jacob McGaw, Esq., an old acquaintance and warm friend of Mr. Webster, will address the Supreme Court at 11 o'clock to-day and move an adjournment of the Court during the hours of the funeral

WASHINGTON, Oct. 27

The Republic officially announces that the Cabinet have taken strong grounds in opposition to the treatment received by Lieut. Porter, that the affair will be followed with a speedy demand for redress and the rights and honor of the country will be fully maintained.

Tribute to Daniel Webster.

In the absence of the Mayor, the undersigned acting at the request of a large number of citizens of Bangor, recommend that, as a testimonial of our respect for the memory of DANIEL WEBSTER, on this the day of his funeral, the bells be tolled from twelve to one o'clock, and that during that hour the citizens close their places of business, and that the various flags in the city and upon the shipping be displayed at half mast during the day

Minute guns will be fired during the hour of the funeral

Departure of the Gold Hunter.

The Bark Gold Hunter, Capt Nickerson left this city on Wednesday, with about one hundred passengers, among them several families and children, for California.

A large number of the friends of those embarking were at the wharf as she departed and there were many wet eyes among the mothers, wives, sisters, daughters and friends who were left behind after the last farewells were said, and the last kind look taken

These adventurers go for health and strength and with a full purpose to try the new land and if possible to redeem their fortunes or to lay a firm foundation for a new and comfortable home far away from the place of their birth

Large as is the number of representatives from New England to California they compose nevertheless, scarcely more than the salt for the whole The number that has set some has been fully required to keep up New England principles opinions and habits with all their vital force in the masses that, from all quarters are throwing the new State

Hard are many touching incidents in the tedious and in exchanging of remembrances in the last fond pressure of the hand, the look, the trembling voice and the starting tear However the number of these companies may be multiplied at each departure there will arise many very many of these heart experiences all touching and tender

We shall publish a correct list of passengers in the Gold Hunter when she sails

Whig Caucus.

The Whigs of Bangor and all interested in the election of the gallant Gen Scott for the Presidency are to hold a grand council at the City Hall on Saturday evening, when an address will be delivered by Hon Israel Washburn, Jr, and by other friends of the cause — The whigs of Bangor have an important duty to perform in the coming election, and they should delight to meet together to listen to words of counsel and of cheer regarding the political issues of the times, the responsibilities that rest upon the whigs and the prospects that cluster around the whig cause!

Let every man, take his neighbor with him to the caucus on Saturday evening and show that he feels a deep interest in the success of Scott and Graham, and the political principles they so ably represent

☞ An engagement occurred a short time since between the Mexicans and Indians about twenty miles from St Patricio in which eleven Mexicans and two mail carriers were killed — The mail train between Fort Ewell and San Antonio was driven back by the Comanches recently who are represented as coming by swarming the country. Lieut McRae had a sharp pursuit of them

☞ The rational and honest though very warm friends of Mr Webster in Boston, have urged the Webster Executive Committee to suspend political operations for the campaign but the Committee refuse to do and are determined to throw as many votes for their ticket as possible Political madness can go further go

☞ LET EVERY MAN VOTE.

NEXT TUESDAY the voting for president will take place throughout the country. It is but once in four years that the country calls upon us to perform the duty of electing a CHIEF MAGISTRATE. Every voter ought to respond to this call of his country. Let your journeying be delayed or hasten your return home, that you may cast in your vote with the millions who will NEXT TUESDAY participate in the grand decision then to be made. Let all business be suspended that you may devote ONE DAY to the service and perpetuation of these democratic institutions which, by the blessing of Providence, were inherited and handed down to us by the immortal Washington and compatriots. Triumph of Nativism in Pennsylvania

The locofocos are rejoicing over the election of Judge Woodward They claim his election as a "Democratic triumph" The character of his "Democracy" may be learned from referring to vol 5, page 543, of the official proceedings of the Convention to amend the Constitution of Pennsylvania The following is the record —

Mr Woodward moved to amend the amendment by adding thereto the words, "and that the said committee be also instructed to inquire into the propriety of so amending the Constitution as to PREVENT any foreigners who may arrive in this State after the fourth day of July, 1841, FROM ACQUIRING THE RIGHT TO VOTE, OR TO HOLD OFFICE IN THIS COMMONWEALTH.

Mr Woodward made a speech in support of his proposition, in which he put forth the most virulent and ultra nativist doctrines. Of course he was supported by the whole NATIVE AMERICAN PARTY, and the same party have also ADOPTED PIERCE AND KING as its candidates! Let our naturalized citizens remember these facts when they vote on Tuesday next!

COUSINO BACK — The Hon Wm S Parham, of Louisiana, over whose accession to the Democracy the Locofoco sheets raised a universal shout, has become convinced that he did Gen Scott injustice, and like an honest man he has come out and said so and will support the old hero with all his might. This is the case with great numbers

DANIEL WEBSTER

It is with feelings of the deepest grief, we are called upon to announce that the American statesman DANIEL WEBSTER is no more! He breathed his last at his late residence in Marshfield at twenty two minutes before three on Sunday morning, amid the tears of the sorrowing and disconsolate family. He kept to his rest so peaceful, that it was difficult to tell at what precise moment the immortal spirit took wings and passed through the valley of the shadow of death

All that human means could do to prolong his valuable and honorable life was put in requisition, but the fiat of Omnipotence had gone forth, and with a cheerful submission to the dread summons the magnanimous soul of Daniel Webster bade adieu to its tenement of clay. The nation is in mourning and will not be comforted. The external drapery of woe—the boom of cannon—the flags at half mast—the mournful stations of respect and sorrow visible everywhere are indications of the deep-seated veneration universally entertained for the man whose departure we record upon to mourn. Let judge is too poor a medium to express the sorrows and of a single bosom; but when a nation's heart is overflowing with grief, the powers of the pen and tongue to give it utterance are poverty indeed

One after another, in rapid succession, have the guiding stars of the Republic gone down and now, the brightest, the most glorious of the constellation has sunk beneath the horizon to rise! One universal sentiment of gloom and sorrow pervades the land, and the sad infliction of this latest calamity.

While we regret the passage of a glorious luminary to the world of shadows it is the mark of wisdom to profit by the light it afforded during the period of its temporal revolution and will not be unless for us now while we lament the decease of Daniel Webster, to take a review of the events of his distinguished life—to study his character—to profit by the light of his experience and to imitate in all things worthy, his noble example

DANIEL WEBSTER was the descendant of a Scottish ancestry, who came to this country more than two centuries since and located in Massachusetts They possessed in a marked degree the distinguishing attributes of the early New England settlers

The father of Daniel Webster, in the early part of his life had seen much military service on the frontiers He enrolled himself at the age of eighteen in what was called Rogers corps of Rangers, which was organized for the purpose of protecting the inhabitants of New England against the Indians They were an active, hardy and fearless band of men, who shrank from no danger and dreaded no fatigue Often in the dead of winter, when the snow lay deep upon the ground and the icy blasts of our bleak climate were howling around, fleecy, covering up and blotting out all traces of an enemy, would these brave hunters pro ceed with skates and snow shoes penetrate the wilderness even to the Canadian frontier and there generally fixed their ambushes on the borders of Lake George, whence they made many and terrible forays into the enemy's territories Stark, Putnam and many other men who at a subsequent period became distinguished in revolutionary history, were trained in this school Webster's father served in the corps from 1756 to the capture of Quebec in 1759 After the peace of Aix la Chapelle, in 1763 he with several other men pushed into the wilderness and settled in the town of Salisbury in Merrimac county, New Hampshire at that time on the hot most verge of civilization His second wife (who became the mother of two sons Ezekiel and Daniel) was from Salisbury in Massachusetts Her maiden name was Abigail East man of a she was noted for her intellect and family Mr Webster also performed acts of distinguished military service as a revolutionary soldier He commanded a company under Gen Stark, at Bunker Hill, and was likewise present at the battle of White Plains He was subsequently elected successively to both branches of the General Court of New Hampshire and was appointed a Judge of the Court of Common Pleas, which office he held, with honor to himself, and advantage to his fellow citizens, for many years and died in 1816, at the age of seventy seven

Daniel one of the five children of Ebenezer Webster, was born in that part of Salisbury, N H which is now known as Franklin, on the 18th of January, 1752 In early life his literary advantages were very limited—but, like his brother Ezekiel, who died suddenly some years ago while pleading an important cause in court—a man of a powerful mind, and great natural eloquence—he was early noted for his activity of mind and aptitude to learn, but he did not especially give indications of that transcendent intellect which in its full and noble subsequent development, was destined to exert so powerful an influence upon the fortunes of his country After passing some time at the public schools—and the public schools at that time were not of a high grade—his father was reluctantly persuaded by Rev Samuel Wood of Boscawen, to allow him to enter on a course of studies preparatory to entering college He was accordingly sent for a time to Phillips (Exeter) Academy, under the tuition of that celebrated instructor of youth, Benjamin Abbott, LL D Here subsequently completed his preparatory course of studies under the direction of Rev Dr Wood and entered Dartmouth College, in which institution he remained four years, graduating in 1801.

After leaving the college, Daniel Webster engaged for a time in the business of teaching school—A few weeks since, on passing through the beautiful village of Fryburg Me on returning from an excursion to the White Mountains a citizen of that town pointed out to us, with pride and gratification, the site of the building, dignified by the name of Academy, where Daniel Webster, fifty years ago, labored zealously and faithfully in the honorable vocation of a teacher of youth He soon, however, returned to his native town, and entered on the study of the law in the office of Thomas W. Thompson. Having studied for a time with Mr. Thompson, he came to Boston and entered as a student the office of Christopher Gore, subsequently Governor of the Old Dominion wealth—at that time an eminent counsellor, and engaged in a lucrative and extensive practice. He remained with Mr Gore until his term of study had expired, and after being admitted to the bar, in 1805 established himself in the practice of law, at Boscawen, N H It was about this time that Judge Webster, with some difficulty, procured for his son the appointment of Clerk of the Courts of New Hampshire, an office of emolument as well as honor, not doubting that the appointment would have been promptly and cheerfully accepted. But Daniel much to the surprise and chagrin of his father, after consulting Mr Gore, and seeing nobler prospects in the distance, declined the permanent situation of Clerk of the Courts

In 1807 he removed to Portsmouth, where a wider field was before him Here he had an opportunity to measure his powers with some of the most distinguished legal gentlemen of the day—Among them was Jeremiah Smith, an acute lawyer a man of great experience and profound legal learning who had been Chief Justice of the Superior Court of New Hampshire, but had gone back to practice at the bar Jeremiah Mason was another, a man who is well remembered in Boston, and who was acknowledged to have been one of the ablest as well as most successful practitioners at the bar, ever known in New England With such men as these Daniel Webster was called upon to contend and fearless in the mental encounter, he compelled them time and again to feel and acknowledge his power. It was fortunate for him, that he was summoned at once into such an arena, for it gave him an opportunity to measure his strength at the outset with that of the intellectual giants of the time

To the American People.
ASTONISHING HOME PRODUCTION
FOR THE CURE OF
Coughs, Colds, Asthma and Consumption.
HARDYN'S Great American Remedy for Coughs, Colds, Asthma and Consumption, has now proved itself, beyond a question, and I will submit the test to any regular, scientific physician, to whom I may make known the ingredients of which it is composed, far before any other article, which is advertised as a ready prepared medicine, for the complaints above named.
Do not imagine that because it has not some unintelligible, foreign name, or does not purport to have sprung into existence beyond the Atlantic or the Pacific, (perchance the juice of some wonderful tree or plant tapped and extracted by the hands of Hygeia herself,) that it can have little merit, but, on the contrary, be proud to try a home product on which emanated from the Laboratory of one of your own (State of Maine) Physicians, of extensive learning, long practice and deep in the knowledge of medicine and his profession. Thousands of dozens of bottles of this medicine have been sold within two or three years; indeed its gigantic preponderance in the scale of reputation, demand, and actual use, makes it certain that it has no equal. Try it, Americans, and upon its own intrinsic merits let it stand or fall. It should be kept by every family.
Price 37½ cents per bottle, at HARDY'S, No 3 Harlow's Block, and at most of the Druggists in Maine. oct14 WM. G. HARDY.

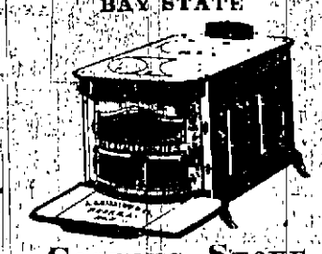
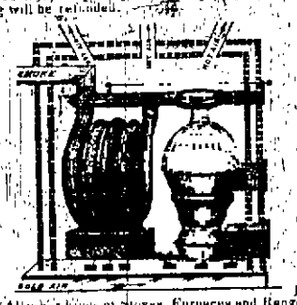
THE BEST
STOVE in the Market!
EXPERIENCE has proved, beyond a reasonable doubt, that the
BAY STATE



COOKING STOVE,
(For which the subscriber is Sole Agent) is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, broiling, baking, &c., &c., all competitors as well as in smoothness and thickness of Castings, durability and economy. The fact that more than 25,000 are sold per annum, is of itself proof positive of its general excellence.
Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand.
One great advantage possessed by the Bay State over all other Stoves of whatever description, to which advantage public attention is particularly invited, and which enables it to bake equal to the very best brick oven, is the improved and durable and economical character of its fire plate, being of great thickness and, compared with other cheap cast, requiring less fuel than other Stoves, and baking with great evenness and expedition. This advantage will be appreciated by all intelligent housekeepers and cooks.
The Bay State is of six sizes, varying from $15 to $60.
THE WARRANT!
TAKE NOTICE.
Stoves not proving satisfactory after a fair trial of 30 days, the price paid and expense of returning will be refunded.



Also for other kinds of Stoves, Furnaces and Ranges, together with Registers, Ventilators, and Copper Steel, Sheet Iron and Tin Ware constantly on hand and for sales at reduced prices.
LIKEWISE:
Penrhyn Marble Mantels!
An exceedingly elegant and cheap article, and one which retains its beauty and polish even in opposition to coal gas, smoke and acids.
EGYPTIAN MARBLE
Is also kept on hand, which is recommended to the attention of architects, builders and others.

Valuable Real Estate
AT BUCKSPORT, MAINE,
For sale, by order of Administrator, at Public Auction, on the premises, on TUESDAY, Nov 9th, at 10 o'clock, A. M.
All the right, title, and interest, to the valuable Estate formerly belonging to JOHN CHEEVER, merchant of said place, held by virtue of mortgage, for $1826 62 cents, with interest, amounting to $2046 05, and possession under it. Said estate is situated on Buckhold Bay, about one mile from the steamboat landing, and two from the village, consists of a double two story Dwelling House, with five rooms on a floor, a commodious Store and Store House, Fish House, and Sheds, ship yard and extensive wharf facilities, with about one and a half acres of land under and adjoining. The buildings have been built but a few years and are in good condition. This Estate is valuable as a Depot for trade, lying as it does on both sides of the main road leading to Sedgwick and Brooklyn and near the bridge now building. The Store house contains a ship fitted with shelves, counters, &c., suitable for a wholesale or retail business, and stands upon a wharf in an inner harbor with a deep enough bottom, accessible at all stages of the tide, where vessels can lie in safety and load or unload directly to the store; in short, no place on the coast offers better advantages for conducting the fishing business in all its branches. The ship yard where several vessels have been built furnishes every facility for building purposes. For further particulars apply to B. W. HINCKLEY, Esq., at Bucksport, or the auctioneers, at No 34 Front Street Salem.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U S Patent Office, in accordance with the 10th Sec. of Act of '37

Having relinquished the Agency for the transmission of Models, and adopted another regulation, while of sending them to the Patent Office) *there by Patent may be procured also a few weeks earlier* he continues to forward them free of expense—to prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors save the time and expense of a journey to Washington and delay there, as well as all persons liable to be imposed on in obtaining their patents They also save the advantage of *verbally* explaining their inventions and consulting in respect to them, *matters in general, of paramount importance in order to obtain correct specifications and claims* The experience of *sixteen* year's practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts heretofore kept of inventions patented at Washington, enable the subscriber to afford inventors advantages of procuring Patents assistance and information which in other respects might be difficult of attainment

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1840.—During the time I continued the Office of Commissioner of Patents, R H EDDY, Esq of Boston, did business at the Patent Office as Solicitor for procuring Patents There was few if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND DYSPEPSIA.

Copy of a Letter from Mr. R. W. York, Chemist, 7, Prescot Street, Liverpool, dated 8th June, 1850.

To Professor Holloway,

Sir—Your Pills and Ointment have stood the highest on our sale list a Proprietary medicine for some years. A customer to whom I recommended for any enquiries as to their effect, gave me the particulars of her case. She had been troubled for years, with a disordered liver and dyspepsia. Of the last complaint she never knew the virtuous of the attack was so alarming as to keep her constantly in so severe pain that she was unable to lie down at night, and her life was despaired of. She had consulted the most eminent physicians, but received no benefit. In this state she had recourse to your Pills and Ointment, and perseverance in their use for a short time effected a perfect cure. She has since taken them on the first symptom of indigestion, and has not been troubled with her complaint since. I feel assured that if people would only have recourse to your invaluable medicines in the early stage of disease, many valuable lives might be saved from untimely graves. I think, therefore, you are at liberty to publish this speedy cure, I think, remarkable and astonishing Pills

AN EXTRAORDINARY CURE OF KIDNEY DISEASE IN ENGLAND.

Copy of a Letter dated the 1st March

Sir—My wife has been subject to gravel for years, and at New Year, had been suffering from a violent rheumatic fever, upon which she had entirely deprived her of the use of her limbs, during this period she was in the last of the most excruciating agony, and her friends and brethren her case was considered hopeless. A friend prevailed on her to try Holloway's Pills which, she says, relieved her in an hour, and in three doses, she was free from pain, and in a few weeks perfect cure

August 30, 1851

To Professor Holloway,

Sir—I consider it a duty I owe to your Pills and Ointment, to inform you of the great benefit I have received from taking your Pills and Ointment. I was afflicted with a pain and tightness in my chest and stomach which was so severe, as to deprive me of my rest, and at times I could not take a single step without stopping for ease. I was 84 years of age, and my friends and my physician advised me to take your Pills, which I could not refuse, and I have lived to see that I am cured of the complaint. I am now made acquainted with the wonderful effects of your Pills and Ointment, which I have found to be rendered, by their means, not only safe, but pleasant. I shall take every opportunity of recommending your Pills and Ointment, which I consider to be the best in the world.

DR. MORSE'S INVIGORATING CORDIAL!

FOR GENERAL DEBILITY IMPOTENCY IN CONTINANCE OR NOCTURNAL EMISSIONS &c The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude, and General Prostration*, arising from the consequences of youthful indiscretion or excesses in the use of the passions, has induced many to believe it a preparation over and above all others, in fact a remedy for the disease complained of. It is simple, harmless and alone. There have been other medicines that have had equally the same effect, but it is a fact that has not been generally known, that the Medical Faculty THE WONDERFUL VIRTUE AND PRODUCTION of which this invaluable cordial has been tested and its virtues proved to be the high estimation of the faculty of London, Paris, and the chief cities of Europe, as well as by the loyal people in this country. It is the only Cordial for NERVOUS HEAD and MIND COMPLAINTS, it is not a physical long winded cordial, it is a cordial, the only agent that can introduce NO MIND DISEASES. It will remove all the effects of DEPRESSION EXCITEMENT, especially in those, loss of MEMORY CONFUSION of Ideas Distraction, fear of insanity, &c &c it then possesses the remarkable property of being a decided aphrodisiac, and restoring the parts to their original vigor, and vitality, and in fact it has been said by some that these parts were never in vain. This is wonderful, but it is true.

DR MORSE'S INVIGORATING CORDIAL, and its constantly curing these complaints, is the most kind and healthy remedy ever offered to the public, and is certainly the most effectual and decisively so.

Dr Wendell of the Massachusetts Medical College in his lectures says "I thought it my duty to give my testimony in favor of Dr Morse's Invigorating Cordial, and to tell you that I have prescribed it in the cases in the hospital, and it has had the effect of curing the patients in a short time. I have also prescribed it in my private practice, and it has proved to be a valuable medicine. I believe it to be a safe and valuable medicine, and I think it should be used by the medical faculty generally."

THE COMMON EXPRESSION

Office of the Medical Institute, Dear Sir—I have found your cordial highly powerful in its effects, and I do not hesitate to recommend it to the public as a valuable medicine, with such testimony as I have in its favor, I think it should be used by the medical faculty generally. Yours &c
